ABOUT ME

I'm a Full-Stack Developer and Automation Expert dedicated to building scalable, high-performing web applications and intelligent automation systems. Proficient in the MERN stack (MongoDB, Express, React, Node.js) and modern development tools, I bridge the gap between frontend precision and backend efficiency. I've engineered solutions in fintech, e-commerce, and enterprise environments—emphasizing clean architecture, maintainable code, and seamless user experiences. Passionate about innovation, I continuously explore automation strategies that optimize workflows, reduce manual effort, and accelerate product delivery across the development lifecycle.

SKILLS | SOFT SKILLS

Frontend Development, MERN, Creative Thinking, Team Work, Problem-Solving, Testing & Debugging, Version Control & Deployment, Backend Development, Automation tools, CMS Builder, Automation flow.

EXPERIENCE

HNG Internship , Remote , Italy -Internship & Graduate | Frontend Developer

AUG 2019 - DEC 2022

- Development and design of new user interfaces for new products.
- Regular code maintenance of existing products.
- Discussions with team members on product features, implementations and best product practices.
- Collaborating with backend developers to implement frontend with the backend.
- Collaborating with backend developers to implement frontend with the backend.

React Developer - Freelancing , Upwork - Frontend Developer

SEPTEMBER 2019 - present

- Responsible for the implementation of Client's new responsive website
- Collaborated with backend developers and designers in discussing new features
- Offering creative solutions and approaches to problems.

MPP Academy, USA — Remote - Automation Engineer

SEPTEMBER 2019 - present

- Designed and implemented automation workflows to streamline internal processes and improve operational efficiency.
- Developed and maintained scripts and tools to automate repetitive tasks across multiple departments.
- Collaborated with cross-functional teams to identify automation opportunities and integrate solutions into existing systems.
- Monitored and optimized automation performance to ensure reliability, scalability, and accuracy.
- Provided technical support and documentation for automated solutions to enhance team adoption and knowledge sharing.

EDUCATION

- **Obafemi Awolowo University** - *B.sc Computer Science and Engineering*
- **Faith Schools and College** - *High School (S.S.C.E) | West African Senior School Certificate Examination*

LANGUAGE:

- **English - Native**

AWARDS

- **React-Complete Developer Courses with Hands-On Projects**
- <https://www.udemy.com/certificate/UC-7748943f-a17a484e-8bbd-3cd169973f98/>
- **Front End Development Libraries** -
